Department of Environmental Studies

NATIONAL LEVEL PROJECT REPORT PRESENTATION COMPETITION

For Undergraduate Students
Across India

Established in 2016, the Department of Environmental Studies at Sacred Heart College is committed to advancing environmental education, research, and community engagement. The department offers an M.Sc. in Environmental Science along with interdisciplinary courses for undergraduate students. With the guidance of experienced faculty and initiatives such as the Adopt-a-Mangrove Programme and community-based water resource management, the department actively promotes sustainability and nurtures environmentally responsible professionals. Students from the department have excellent placement opportunities, having secured many positions in reputed research institutions, environmental organizations, and government agencies.
