Strategic Plan Goals

Strategic Plan Goals

Sacred Heart College, Kochi, in its relentless pursuit for excellence has developed appropriate policies and strategies for becoming an institute of eminence. The strategic plan document of 2017, built on the following six goals, has both vertical and horizontal axis for development. For a better understanding and clarity of the vision of strategic plan, the IQAC Committee developed six goals which have vertical and horizontal significance.

Educational Leadership

Develop and impart an innovative, technologically updated and quality - oriented education which can motivate the students for deeper understanding and learning. This must in turn make the college a place of eminence and reference point for other institutions.

Student Support and Progression

Enhance the academic potential, creativity and excellence of the students. The enhanced academic atmosphere shall contribute to the betterment of the society.

Faculty selection/Development

Bring intellectual diversity by selecting faculty from diverse intellectual background and nurture them to raise the status of the institution.

Strengthening Research/Consultancy Activities

Develop a research ecosystem in the institution and focus on the transfer of knowledge through dedicated centres of research, incubation centre and

through community orientation. Promote a culture of publication and research.

Expansion of the Horizon of Knowledge Base

Proposes two kinds of development: one, subject oriented theoretical knowledge and the other, skill oriented knowledge development.

Infrastructure Expansion

Building space for excellence (BSE) is crucial to the strategic plan of the institution as the institution aspires to become a degree granting college and later a university. The college is committed to facilitate an atmosphere of free thinking and effective academic transaction through better working conditions.
