

The Department of Economics of Sacred Heart College, Thevara, has a distinguished legacy of academic excellence since its establishment in 1944. Elevating its stature as a postgraduate centre in 1959 and a Ph.D. research centre in 1994, the department has conferred 59 doctoral degrees to date and continues to lead in economic research and education. Building on this strong foundation, we are honoured to host this year's National Economics Conference.

The conference examines India's economic resilience amidst growing global uncertainties, focusing on the challenges and opportunities confronting the Indian economy in a rapidly evolving international landscape. The event will feature scholarly paper presentations, insightful discussions, and keynote addresses by eminent economists and policymakers. We invite you to join us for the National Economics Conference on "India's Economic Resilience amidst Global Uncertainties" on February 6-7, 2025.
