

CAMPUS CATALYST

DR RAM MOHAN IN CONVERSATION

Empowering Youngminds
For A Greener Tomorrow

Department Of Chemistry | Sacred Heart College Thevara

DR RAM MOHAN

FulbrightScholar|GreenChemistryExpert|ProfessorIWU (USA)

A pioneer in eco-friendly chemical research, widely recognized for his innovative work using non-toxic bismuth compounds. He serves as the Wendell and Loretta Hess Endowed Professor of Chemistry at Illinois Wesleyan University, USA. Dr. Mohan earned his bachelor's degree from Hansraj College, University of Delhi, followed by a master's in organic chemistry from the University of Delhi and a Ph.D. from the University of Maryland, Baltimore. He completed his postdoctoral research at the University of Illinois Urbana-Champaign. A passionate educator and mentor, Dr. Mohan has guided over 130 undergraduate students and continues to promote sustainable science through teaching, research, and international outreach

Host a Green Chemistry Session at Your Campus

About the event

Sacred Heart College (Autonomous), Thevara, is proud to initiate a transformative series of sessions aimed at empowering students and institutions through sustainability education. Featuring Dr. Ram Mohan, a Fulbright Specialist and internationally recognized Green Chemistry expert, this event opens a space for meaningful dialogue and environmental leadership.

What students will gain?

- A foundational understanding of Green Chemistry
- Exposure to real-world sustainable science practices
- Practical guidance on starting sustainability projects in their school
- Interaction with Dr. Ram Mohan
- Insight into global sustainability efforts

**Inspire young minds
bring global insights and
ignite sustainable future
conversations at your
campus.**
