Master of Arts Programme in Sociology

SCHEME

The Sacred Heart College, Thevara (Autonomous) proposes to offer a Post Graduate Degree Programme in Sociology with a total of nineteen Theory Papers, a Dissertation and an Internship. In addition to theoretical learning, the course also aims at Field Based Interactions and Exposure Activities.

This Programme is devised to provide the students a sound theoretical base for the understanding of contemporary social phenomena, with equal importance to classical and contemporary theories on one hand, and a number of special areas of academic topics on the other. It offers a total of three papers on Sociological Theories, and one paper each on areas such as Social Research Methodology and Social Psychology, besides a substantial number of papers which aim at detailed understanding of the diverse realities and issues of Indian Society. Papers on Contemporary social issues such as Globalization, Social Movements, Gender Consciousness, Environmental Crisis and Crime, provide in-depth theoretical as well as empirical insight to the learners.

The papers on Research Methods, Social Psychology and Counselling, Statistics etc. enhance practical skills of students in Field Work, Statistics and SPSS. The students are expected to do an internship with an NGO during the second semester.

In the third semester, the students work on a Dissertation on a topic of specialization under the guidance of the supervising faculty.

Altogether this program is devised as having a total of twenty credits in each semester during the first three semesters and fifteen credits in the final semester.

(i) To ensure transparency of the evaluation process, the internal assessment marks awarded to the students in each course in a semester shall be published on the notice board at least one week before the commencement of external examination. There shall not be any chance for improvement for internal mark.

(ii) The course teacher and the faculty advisor shall maintain the academic record of each student registered for the course which shall be forwarded to the Controller of Examinations and a copy should be kept in the college for at least two years for verification.

(a) **External evaluation:** The external examination in theory courses is to be conducted by the College with question papers set by external experts. The evaluation of the answer scripts shall be done by examiners based on a well defined scheme of valuation. The external evaluation shall be done immediately after the examination preferably through centralized valuation.

Photocopies of the answer scripts of the external examination shall be made available to the students for scrutiny on request and revaluation/scrutiny of answer scripts shall be done as per the existing rules.

The question paper should be strictly on the basis of model question paper set by BoS and there shall be a combined meeting of the question paper setters for scrutiny and finalization of question paper. Each set of question should be accompanied by its scheme of valuation.

10. Direct grading system

For all courses (theory and practical), letter grades and grade points are given on a 10-point scale based on the total percentage of marks (ISA +ESA) as follows:

Table 9. Direct grading system: Grade points:

Percentage of Marks	Grade	Grade Point (GP)
95 - 100	O Outstanding	10
85 - 95	A⁺ Excellent	9
75 - 85	A Very Good	8
65 - 75	A⁻ Good	7
55 - 65	B⁺ Above Average	6
50 - 55	B Average	5
40 - 50	C Pass	4

0 - 40	F Fail	0
	Ab Absent	0

Grades for the different semesters and overall programme are given based on the corresponding GPA as shown below:

GPA	Grade
9.5 - 10	O Outstanding
8.5 – 9.5	A⁺ Excellent
7.5 – 8.5	A Very Good
6.5 – 7.5	A⁻ Good
5.5 – 6.5	B⁺ Above Average
5.0 – 5.5	B Average
4.0 – 5.0	C Pass
0.0 - 4.0	F Failure

A separate minimum of 40% marks (C Grade) is required for both internal and external evaluation for a pass for a course.

A candidate who has not secured minimum marks/ credits in internal examinations can re-do the same by registering according to the examination manual.

A student who fails to secure a minimum marks/ grade for a pass in a course will be permitted to write the examination along with the next batch.

There will be no supplementary examinations. There shall not be any chance to improve the mark/ grade/ grade point of a course, if the student has passed the same.

After the successful completion of a semester, Semester Grade Point Average (SGPA) of a student in that semester is calculated using the formula given below. For the successful completion of semester, a student should pass all

courses and score a minimum SGPA of 4.0. However, a student is permitted to move to the next semester irrespective of her/ his SGPA.

Credit Point (CP) of a course is calculated using the formula

$$\mathbf{CP = Cr \times GP}$$
, where Cr = credit; GP = Grade Point

Semester Grade Point Average (SGPA) of a semester is calculated using the formula $SGPA = TCP/TCr$, where

$$TCP = \text{Total Credit Point of that semester} = \sum_{i=1}^n CP_i$$

$$TCr = \text{Total Credit of that semester} = \sum_{i=1}^n Cr_i$$

where n is the number of courses in that semester.

Cumulative Grade Point Average (CGPA) of a programme is calculated using the formula $CGPA = \frac{\sum(TCP \times TCr)}{\sum TCr}$.

GPA shall be rounded off to two decimal places.

11. Pattern of questions

- (a) Questions shall be set to assess knowledge acquired, standard and application of knowledge, application of knowledge in new situations, critical evaluation of knowledge and the ability to synthesize knowledge. The question setter shall ensure that questions covering all skills are set. He/ she shall also submit a detailed scheme of evaluation along with the question paper. A question paper shall be a judicious mix of short answer type, short essay type/ problem solving type and long essay type questions.

Table 11. Pattern of Questions for External Evaluation: Theory

Type of Questions	Total number of questions	Number of questions to be answered	Marks for each question	Total Marks
Short answer type questions	12	8	2	16
Short essay (problem solving type questions)	10	7	5	35
Long essay type questions	4	2	12	24
	26	17		75

12. GRADE CARD

The colleges under its seal shall issue to the students, a grade card on completion of each semester, which shall contain the following information.

- a) Name of the College
- b) Title of the Postgraduate Programme
- c) Name of the Semester

- d) Name and Register Number of the student
- e) Code, Title, Credits and Max. Marks (Internal, External & Total) of each course (Theory & Practical) in the semester.
- f) Internal, External and Total Marks awarded, Grade, Grade point and Credit point in each course in the semester
- g) The total credits, total marks (Max. & Awarded) and total credit points in the semester
- h) Semester Grade Point Average (SGPA) and corresponding Grade.
- i) Cumulative Grade Point Average (CGPA)
- j) The final Mark cum Grade Card issued at the end of the final semester shall contain the details of all courses (theory & practical) taken during the final semester examination and shall include the final grade/marks scored by the candidate from 1st to 3rd semester, and the overall grade/marks for the total programme.

14. AWARD OF DEGREE

The successful completion of all the courses with 'D' grade (40%) shall be the minimum requirement for the award of the degree

15. MONITORING COMMITTEE

There shall be a Monitoring Committee constituted by the principal consisting of faculty advisors ,HOD, a member from teacher learning evaluation committee (TLE) and college coordinator to monitor the internal evaluations conducted by college. The Course teacher, Faculty Advisor, and the College Coordinator should keep all the records of the internal evaluation, for at least a period of two years, for verification.

16. GRIEVANCE REDRESSAL MECHANISM

In order to address the grievance of students regarding Continuous internal assessment (CIA) a three-level Grievance Redressal mechanism is envisaged. A student can approach the upper level only if grievance is not addressed at the lower level.

Level 1: At the level of the concerned course teacher

Level 2: At the level of a department committee consisting of the Head of the Department, a coordinator of internal assessment for each programme nominated by the HoD and the course teacher concerned.

Level 3: A committee with the Principal as Chairman, Dean of the concerned Faculty, HOD of concerned department and one member of the Academic council nominated by the principal every year as members.

17. TRANSITORY PROVISION

Notwithstanding anything contained in these regulations, the Vice-Chancellor shall, for a period of three year from the date of coming into force of these regulations, have the power to provide by order that these regulations shall be applied to any programme with such modifications as may be necessary

18. REPEAL

The Regulations now in force in so far as they are applicable to programmes offered by the college and to the extent they are inconsistent with these regulations are hereby repealed. In the case of any inconsistency between the existing regulations and these regulations relating to the Choice Based Credit System in their application to any course offered in the College, the latter shall prevail.

Objective: This course aims to familiarize students with the basic knowledge on the research methods in Sociology.

Module 1: Logic of Inquiry in Social Science Research

- 1.1. Social Research: Definition, Objectives, Characteristics, Applications and Significance -
 “Iterative” Process of Research -Relevance of Theory in Research
- 1.2. Types of Social Research (Basic, Applied and Action, Exploratory, Explanatory, Quantitative and Qualitative, Cross Sectional and Longitudinal Research - Cohort studies
- 1.3. Problems in Social Research –Need for objectivity in social research –Stakeholders of Research-
 Issues of Ethics in Social Research.
- 1.4 Steps in planning a research study-

Module 2: The Research Process

2.1 Research Problem Formulation

2.2 Review of existing Literature: Need and Significance

2.3 Research Design, types, relevance and rationale- Conceptualizing the research design

2.4 Hypotheses: Need, Types and Formulation

2.5 Variables and Indicators – Conceptualization, Operationalization and Measurement

2.6 Sampling - Principles of Sampling, Population and Sample, Sample Frame. Sampling Techniques, Probability and Non-probability- Sampling and Non- sampling errors.

Module 3: Types, Sources of data& Methods and Tools of Data Collection

3.1 Types of Data-Primary, Secondary and Tertiary data.

3.2 Sources of Primary Data: Methods of collecting primary data-Social Surveys, Types of Surveys -

Advantages and Disadvantages of Survey Methods- Observation Method- Interview method -Types Socio-metric Methods and Projective Techniques.

- 3.3 **Tools for collection of Primary Data**: Schedule and Questionnaire - Attitude Scales- Likert Scale - Thurston Scales, Guttman Scales/Scalogram Analysis -The Q Sort technique and their functions.
- 3.4. Sources of Secondary data – Sources of tertiary data- Precautions to be taken while using primary, secondary and tertiary sources
- 3.5 **Qualitative Research Methods**-Observation & Ethnography- Qualitative Interviewing, Case Study, Content Analysis –Participatory Research -Recent Debates- Triangulation

Module 4: Measurement

- 4.1 Levels of measurement - Nominal, Ordinal, Interval and Ratio Scales
- 4.2 **The concept of Reliability and Validity** – Significance - Types - Threats to reliability and validity -Establishing reliability and validity of a research instrument
- 4.3 Measurement Errors –Types –Brief overview of sources of measurement error.

APPLICATION OF RESEARCH SKILLS

5 Hours/Week

4 Credits

Objectives: *This course aims to develop the ability of students to apply research methods to practical situations and to enhance their skill of analysis and presentation of data.*

Module 1: Conceptualizing Research

- 1.1 Problem identification – The research question and its feasibility
- 1.2 Procedure of literature review – Identification of relevant literature –Use of electronic data base – Evaluation of literature.
- 1.3 Identifying the research question and formulation of the research problem- Identifying variables.
 1. 4 Refinement of the Research question- Formulation of objectives - Establishment of operational definitions.
- 1.5 Development of working hypotheses-Types of hypotheses - Type I and Type II error- Determination of confidence levels
- 1.6 Format of a research proposal - Preparation of research proposal

Module 2: Planning the Study

2.1 Preparation of research design

2.2 Determining the sample design

2.3 Identification of data collection methods.

2.4 Designing of various research instruments - Pre-test and finalization.

2.5 Construction of Attitude measurement scales such as Likert scales- General issues in Scaling-
Calculation of scores.

2.6 Carrying out a pilot study

Module 3: Execution of the Study

3.1 Collection of data –Selecting the method for data collection – Field work - Collection of data using attitudinal scales – On line data collection - Collection of qualitative data -Safeguards for mitigation of bias

3.2 Preparing the data for analysis

3.3 Computer aided statistical analysis of data. **

3.4 Interpretation of results and generalization

Module 4: Reporting of the Results of the Study

4.1 Principles of scientific reporting- Style and format of social science reporting

4.2 Report Writing- Presentation of results- Objectivity in presenting research findings

4.3 Techniques for Writing up a Qualitative Study - Ensuring internal and external Validity

4.4 Citation and referencing: Introduction to various styles –Use of software

** Computer aided statistical analysis of data- Students may be given hands-on training in the use of user-friendly statistical software packages for quantitative data analysis.

GUIDELINES AND FORMAT FOR PG SOCIOLOGY DISSERTATION

As per the guidelines of MG University, Dissertation is a mandatory part of the curriculum in Post Graduate Programme in Sociology. The structure for the MA dissertation is broad and dissertations vary in format. This is because of differences in the nature of the research question/s and the theoretical and research orientations of students or supervisors. However, there are certain elements that are obligatory in all dissertations, These include

A. Preliminaries.

1. Title Page

2. Certificate-Certificate from 1) Self (declaration) 2) Guide must be included in the dissertation. The head of the institution/ department must countersign the dissertation.

3. Acknowledgement-Acknowledge all persons who have helped directly or indirectly from the start to the finish.

B. Text

1. Introduction & Theoretical frame work
2. Statement of the Problem
3. Relevance of the study
4. Review of Literature.
5. Objectives- General & specific (different aspects of general objective would form the specific objectives)
6. Hypotheses (hypotheses should be the assumptions regarding the findings linked to objectives and should bring out the relation between the dependent variable (s) and any one independent variable)
7. Research Design-mention the design and give the rationale for choosing it.
8. Variables – both dependent and independent
9. Pilot Study
10. Universe and unit
11. Sampling

12. Sources of data-primary and secondary
13. Tool of data collection-Pre-test
14. Tool of data collection-finalisation
15. Data Collection, Analysis and Interpretation. Give inferences also.
16. Findings and suggestions.

C Bibliography- Two commonly used styles are: 1) Vancouver Style: References are numbered according to their appearance in the text. The first author cited in the text is reference number 1 the second author cited is reference number 2 and so on. These numbers are written as Superscripts in the text at their relevant places and enlisted at the end serially.2) Harward Style: References are written in alphabetical order.
The standard formats for writing references/ bibliography are APA and MLA

D. Annexure is included at the last section of the dissertation and should include the tool used and other supplementary data like statistics, photographs etc.

Further Details

The Title-It should be concise, but informative, the title must indicate the objective of the study and the place where the study was conducted.

Introduction-Introduction should contain the purpose of the study. Significance of the study has to be narrowed down from, what is already known of the topic through what is not known, to, identifying the unexplored aspect of the topic.

Review of Literature

Care must be taken to include relevant references only. Evolve a consistent theme in the narration.

Methodology

It should contain Objectives of the study, Hypotheses, Universe, Sampling Frame, Sample size, Sampling procedure, Selection criteria, data collection procedure, instrument, and investigation. **Results-**After methodology the next chapter deals with data analysis and

interpretation

This is usually the longest section of the dissertation and should contain the analysis plan, findings, statistical measures employed, confidence interval, level of significance etc. Present the data wherever possible in the form of a) Graphics-histogram, bar diagram, pie chart, frequency polygon. b) Illustrations. The hypotheses also may be tested in this chapter. For a qualitative study testing of hypotheses is not applicable

Discussion

The discussion should contain the relationships and generalizations shown by the results and show agreement or contrast with previously published work, as well as the rationale for your conclusions. This section should also state the limitations of the work and indicate the scope for further work.

Summary & conclusion

The summary should concisely describe the research problem, the analysis and major findings. Suggestions and recommendations also can be given here.
