

## **Inauguration of Age Friendly Campus (29/06/2016)**

In an attempt to provide continuing education programmes for the elderly, Sacred Heart College, along with NSS volunteers began the Age Friendly Campus initiative. Students said that the elderly will be given training in basic computer use in the first phase. Training on payment of money through internet, railway ticket booking, use of smart phones and video calling will be provided to the participants. The authorities said that information on various programmes for the elderly will be included in the college brochure from next academic year. In the second phase, an employment service will be launched to help the elderly earn income and take up jobs. M. C. Dileep Kumar, Vice Chancellor of Sree Sankaracharya University of Sanskrit, said in his inaugural address that the programme will help the elderly learn more about scientific advancements. The age-friendly campus is supported by Lakeshore Hospital and Magics, an NGO.
