

Department of Zoology

DST-FIST Sponsored Department

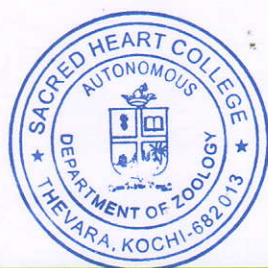

CURRICULUM FEEDBACK ANALYSIS AND ACTION TAKEN REPORT

Programme: BSc ZOOLOGY

Year of Curriculum Revision: 2018-19

Year of Curriculum Implementation: 2019-20

Sl.No.	Feedback	Action taken
1	The syllabus is not appropriate for the programme and does not include the recent advancements in the subject.	Topics that have been repeated in different courses have been omitted and old outdated topics have been removed and newer topics included
2	The curriculum is insufficient with internships or field trips.	Field trip related to their course has been incorporated in the 4th semester and students are encouraged to attend more internship programmes in the 2 year degree course
3	The curriculum designed for the programme does not encourage extra learning or self learning.	Seminar topics and assignment topics are new related topics that are not found in syllabus which encourages students to read, assimilate and present the ideas.
4	The curriculum is not enough to develop self-confidence and self-reliance to face various competitive and other examinations.	The syllabus is designed in such a way to enable students to clear the entrance examinations of PG programmes.
