0%

### BUSINESS STATISTICS

Started on: Tuesday, 9 June 2020

Statistical knowledge helps you use the proper methods to collect the data, employ the correct analyses, and effectively present the results. Statistics is a crucial process behind how we make discoveries in science, make decisions based on data, and make predictions. Business statistics helps management by forecasting seasonal, cyclic and general economic fluctuations. Helps in sound decision making by providing accurate estimates about costs, demand, prices, sales, profits etc.

0%

Started on: Thursday, 10 September 2020

To deal with tool and techniques of statistics to tackle business problems.

0%

### Financial Accounting AMV

Started on: Monday, 19 October 2020

In many ways, accounting is the backbone of a business. It is the language by which the business communicates with outsiders. Its role is to track a company's finances in its numerous forms, from credits, debits, and profitability to payroll and tax filing. Studying Accounting is like studying a foreign language, it will help you in some way at some time at someplace.,
