Event Report

Zoology fest Genysys 2015 was organised on 23.02.2020. Noted snake catcher in Kerala, Vava Suresh gave his insights on snake catching and snakes. **Suresh**, popularly known as **Vava Suresh** (born 1974), is an Indian wildlife conservationist and a snake expert. He is known for his missions for saving snakes straying into human inhabited areas in Kerala. He has captured 200(as of November 2020) King cobras, he is believed to have captured and rescued more than 50,000 straying snakes.He is widely known for his conservation activities like the rescue and release of endangered species of snakes, preservation of collected eggs until hatching periods, and creating awareness among people about snakes and their behavior. He releases his reptile collections into natural habitats at regular intervals of time. His efforts to capture venomous snakes from human populated areas and to educate the people about snakes and their behavior is widely acknowledged.

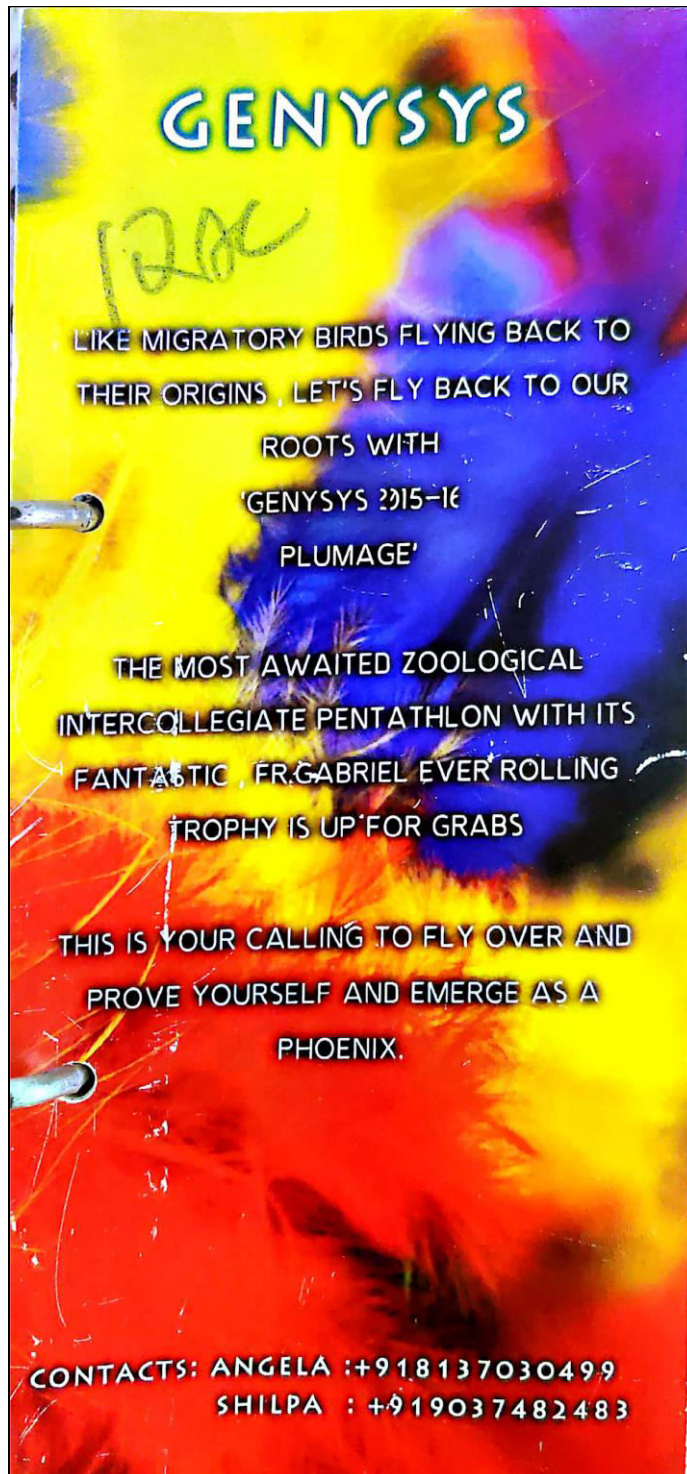

Criterion 3: Research, Innovations and Extension

The Department also organised intercollegiate level competitions. There was active participation in the intercollegiate events by the students from various colleges all over Kerala.
