Event Report

World Ocean Day is a global day of ocean celebration and collaboration for a better future. It is celebrated on 8 June, to spread the awareness to act for prevention of plastic pollution in our ocean. It has been found that the pollutants like plastic and over consumption of fish have resulted in the dwindling population of most species. All these activities of humans have affected the water resources of our country. The N.S.S unit of Sacred Heart College on 8 June, joined for a new venture to remove plastic wastes from Vembanadu Lake as a part of World Ocean Day celebration. As the theme for this year "Healthy Oceans, Healthy Planet" suggests we are planning to make our oceans healthy by preventing plastic waste from reaching the ocean.
