Event Report

Super Blood Blue Moon – An Awareness Lecture on Lunar Eclipse was conducted by the Department of Physics, Sacred Heart College (Autonomous), Thevara on 30.01.2018. The lecture session was held at the Melesius Hall of the College. A veteran in the field Prof S Shobhan Retired Professor from CUSAT delivered the lecture. The informative session helped the participants to delve deep into the domain and also helped in achieving skills. The Blue Moon – second of two full moons in one calendar month – will pass through the Earth's shadow on January 31, 2018, to give us a total lunar eclipse. The January 31 full moon is also the third in a series of three straight full moon supermoons – that is, super-close full moons. It was well received, as evident from the number of questions asked by the audience as well as the number of participants who later joined for the lunar eclipse watch.
