Sir,

I have been working as Senior Librarian at College of Engineering Vadakara, Calicut. As I aware that your esteemed institution's library has adopted the latest techniques of e-resource management now. I am also interesting to learn the nascent technologies for managing electronic and online resources, content management systems such as moodle software etc. In this regard it may be beneficial to convene a training program on Moodle Software (Content Management System) at your college for working librarians. It is obvious that your institution has the best infrastructure facilities, resource persons, and located in a convenient place for the participants all over Kerala. Some of my colleagues (working librarians) are also searching for a program on Moodle software. So I request you to kindly arrange a training program on Moodle Software and Content Management Systems at your college for us. If we convene the program during May 2014, it will be more convenient to us because our college remained closed then for summer vacation.

Thanking you,
