To whom it may concern

It gives me an immense pleasure to certify the work that Mr. Paul Sebastian has done as a Blockchain Content writer. I have been supervising Paul's work since February 2019. The zeal through with Paul has delivered the results since the time he had joined my team is truly commendable.

He has written more than 78 articles on CryptX Blog with topics ranging from Cryptocurrency Technical Analysis, Cryptocurrency News, Industrial Applications of Blockchain and Smart Contracts.

The consistency, Hunger for knowledge, Critical Time management, and an absolute sense of responsibility is the reason why I believe, Paul will be a very valuable asset for the Organisations/Firms he'll be working with. I wish him luck for all his future endeavours.

Regards

Shubham Upadhye
