To  
 Prof. (Dr.) Grace Thomas  
 Department of Chemistry  
 Sacred Heart College  
 Thevara

Dear Prof. (Dr.) Grace Thomas,

Greetings from Central Marine Fisheries Research Institute, Kochi!

We are extremely grateful to you for kindly accepting our invitation to deliver a lecture on "Chiral molecules from renewable resources and their application" in the twenty-one day ICAR-Winter School on "Recent advances in bioactive compounds from marine organisms and development of high value products for health management" at CMFRI, Kochi on 6<sup>th</sup> February 2018.

Your lecture on 6<sup>th</sup> February 2018 at Central Marine Fisheries Research Institute has been highly informative, and I am confident that the participants were benefited from your lecture on the very important area of chiral molecules from renewable resources and their application.

Your publication record is outstanding and we will be very grateful if you are kind enough to consider our institute as the location to deliver lectures in future also. Our research group on marine bioactive molecule discovery has been actively working on projects involving drugs from the sea. Furthermore, I am confident that your visit at our Institute will facilitate the establishment of collaboration program that will benefit both of the institutes in our efforts to work in the frontier area of drug discovery from marine organisms.

With warm regards

Sincerely yours,

**Dr. Kajal Chakraborty**
