

### **Workshop on Paper Bag Making (25/06/2014)**

SWASTI, Women's Cell of our college started functioning in 1990, following the Government of India's initiatives to empower the women of the country. The women cell of our college functions under the banner SWASTI (Sacred Heart Women's Association for Service, truth and Integration). Taking a step further to being eco friendly, the club organised a paper bag making workshop on 25th of June 2014. The event saw the active participation of the students. Paper bag making is a sustainable and eco-friendly way to combat the use of plastic products. It was suggested that students may be encouraged to pass on the skills acquired through the training to others in their community and neighbourhood so that the use of non-renewable packing materials can be brought down gradually.
