REPORT:

Fr. Sales Library of the college organized an orientation programme on Web of Science in Academic Research. College Librarian Mr. Biju V. V. was the resource person for the programme. The objective of the program was to introduce the application of web of science for the faculty members.

Vice Principal Rev. Dr. Jose John CMI gave the opening remarks. He urged the participants to understand the applications of web of science databases for improving their quality of research.

Mr. Biju V. V. demonstrated the applications of web of science. He stated that web of science provides a comprehensive citation data for many different academic disciplines. Mr. Biju demonstrated the *Master Journal List*, which is an invaluable tool to help the researchers to find the right journal for their needs across multiple indices hosted on the *Web of Science* platform. Spanning all disciplines and regions, *Web of Science Core Collection* is at the heart of the *Web of Science* platform. Curated with care by an expert team of in-house editors, *Web of Science Core Collection* includes only journals that demonstrate high levels of editorial rigor and best practice. Using the *Web of Science Core Collection*, search can be done across the different specialty collections: *Biological Abstracts*, *BIOSIS Previews*, *Zoological Record*, and *Current Contents Connect*, as well as the *Chemical Information* products.

The faculty members actively pursuing research and supervising M.Sc. projects participated in the orientation session. Mr. Biju gave them key ideas for obtaining research articles and other resources from these web of science databases.

IQAC convener Ms. Agile Joy proposed the vote of thanks.
