REPORT

2016 Edition of Heartian Science Congress was held on 29 October 2016. A workshop on Research Protocol was organized in connection with the Heartian Science Congress. A research protocol is a document that describes the background, rationale, objectives, design, methodology, statistical considerations, and organization of a clinical research project.

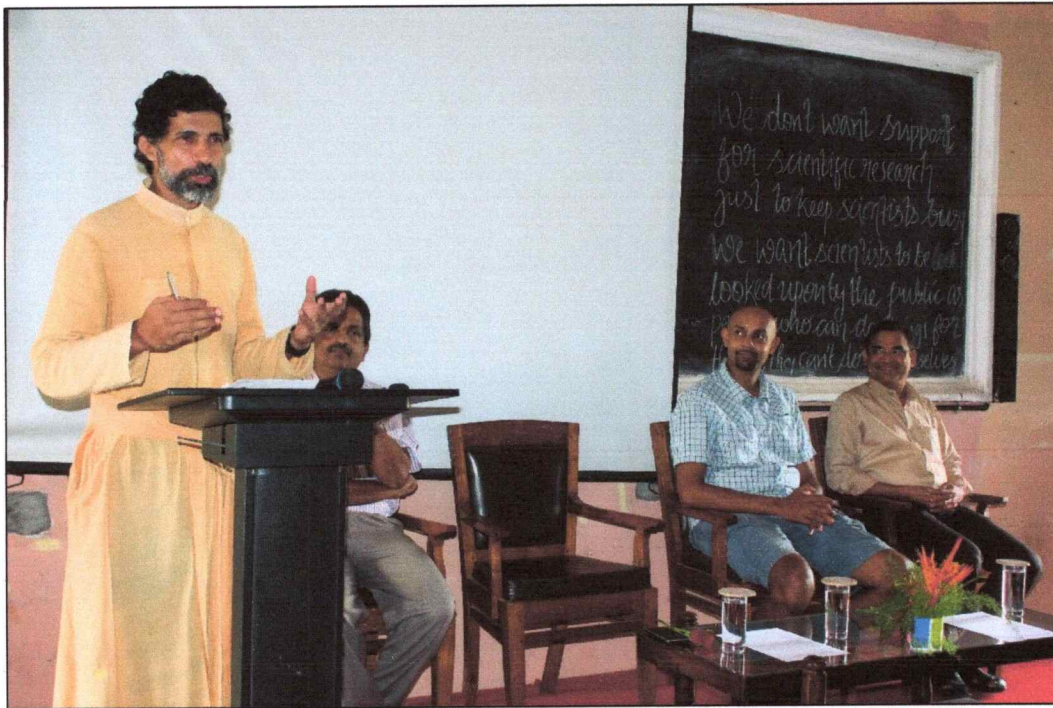

The resource person for the workshop was **Dr. Ullasa Kodandarmaiah**, Department of Biology, Associate Professor, IISER Thiruvananthapuram. The workshop was inaugurated by Rev. Fr. Dr. Johnson X Palackappillil CMI. He urged the faculty members and research scholars to understand and apply the research protocol efficiently in their research activities. Dean of Research Dr. Cyriac Antony and HoD Botany Dr. M. S. Francis spoke during the inaugural session of the workshop.

The technical session of the workshop was delivered by resource person Dr. Ullasa Kodandarmaiah. He explained research protocol as a document that outlines the planning of the study. The plan must be designed to answer the research question and it must also provide a detailed description of the objectives, design, methodology and statistics used. The protocol in effect is the cookbook for conducting the study.

The faculty members and research scholars of the college had an active interaction with the resource person Dr. Ullas.

Dr. Giby Kuriakose proposed the vote of thanks.
